

==== Equipment Location - Certification Information Database (EL-CID) NEWS FLASH ====

This news flash is a reminder to the students in the EL-CID Training Classes held at the Alion Science and Technology Building in Annapolis. During the training class, the instructor showed you how to update the EL-CID database using an updated record from the Training Disk. Attached is a copy of the instructions for your convenience. Please use them to update your database with the latest changes.

EL-CID Data Base Update Procedure

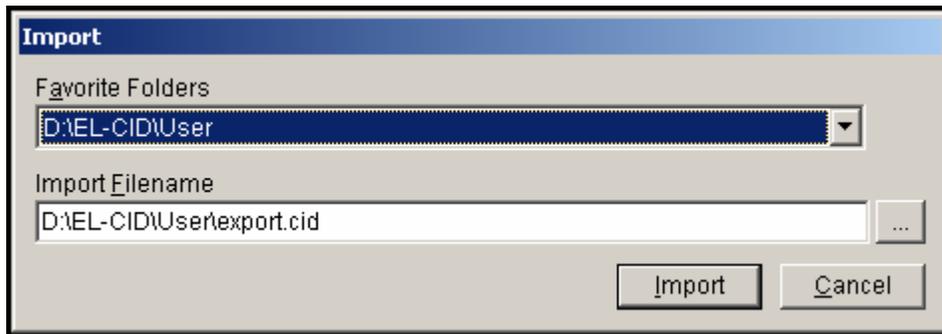

Importing the Justice-Wireless-Network Updated Certification Application and Wireless Network Trunk Template

The following steps will illustrate how to perform the import of the updated Justice-Wireless-Network Certification Application, and the Wireless Trunk Template and how to delete the old outdated certifications.

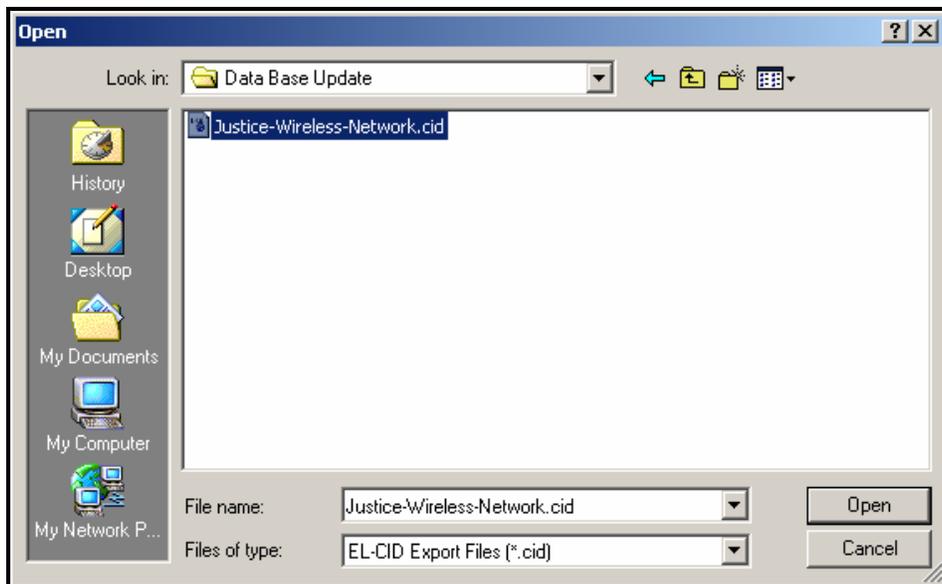

Step 1. Click the **Import** button.

The **Import** window is displayed. (This illustration uses the same default folders that were shown during the training class. You may have loaded the EL-CID program using a different path name. You should use the path name where you loaded your EL-CID software.)

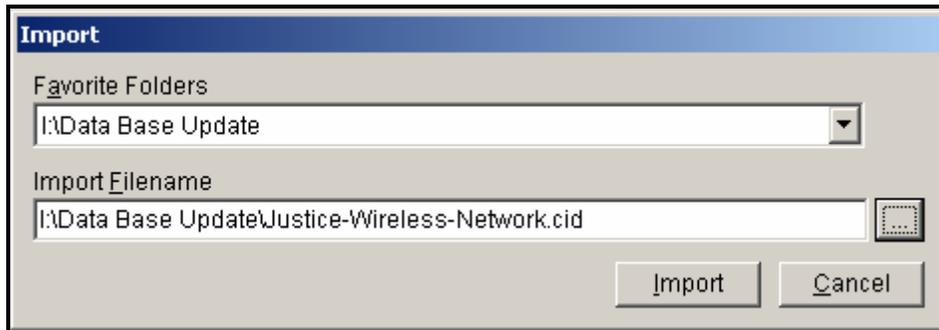

Step 2. Click the **browse** button to select the file to import. The folder we are using is on the EL-CID Training CD. Go to **{CD-ROM Drive Letter}\Data Base Update**. Highlight the filename **Justice-Wireless-Network.cid** and then click **Open**.
