

=== Equipment Location - Certification Information Database (EL-CID) NEWS
FLASH ===

This news flash in to inform you of an issue that has occurred since the release of EL-CID Version 2.0 Release 71.

Affected Software Version(s): 2.0 Rev 71

Problem Description (1 of 1)

It is possible to add an attachment under the Attachments node of a certification and not reference a document, but leave the data grid blank. This produces an attachment node with no reference to a document. This will cause the error message "Error exporting to file.", when you attempt to export the certification.

Solution

Delete the attachment node that does not contain a reference to a document.
